

7.7

将 bar5.c 修改为

```
static double x;  
  
void f()  
{  
    x = -0.0;  
}
```

运行结果为:

```
d:\Codefield\Workplace>gcc -Wall -Og -o fb foo.c bar.c  
  
d:\Codefield\Workplace>fb  
x = 0x3b6d y = 0x3b6c
```
